Subject: Re: Facility Data

Joe and I are on it

Will you please provide a POC for pesticides? We have questions about that data.

We need a strategy for pulling and/or assembling data for facility specific requests (RMP, FRP, SPCC, Pesticide Producing Establishments, etc). Please developing a draft plan by tomorrow. This should include how we pull together info on a particular facility and how that data should be interpreted and limitations on what you can say. For example, Tier 2 data is a year old and state data. Thanks
